EDUCATION

Columbia University Mailman School of Public Health — New York City, NY
Master of Public Health in Epidemiology — Expected May 2027
Certificate in Comparative Effectiveness and Outcomes Research
GPA: 4.17/4.33
Relevant Coursework: Analysis of Large Scale Data, Data Science, Survival Analysis, Health Economics, Decision Analysis
Thesis (proposed): Opioid prescribing patterns and subsequent opioid use disorder among gynecologic cancer patients, using MarketScan commercial claims data

University of Pennsylvania — Philadelphia, PA
Bachelor of Arts in Cognitive Science, Minor in Neuroscience and Healthcare Management — May 2025
GPA: 3.87/4.00

University of New South Wales — Sydney, Australia
Study Abroad — January 2024 - May 2024

WORK EXPERIENCE

Columbia-World Health Organization Center for Global Mental Health — New York City, NY
Graduate Research Assistant — May 2026 - Present

- Analyzed quantitative survey data in R from WHO-coordinated pilot of global mental health data collection tool, applying nonparametric statistical tests to evaluate its cross-cultural validity; drafted results and methods sections for manuscript
- Validated data collection tools built on different platforms by international partners, applying rigorous testing measures to ensure consistency with the original
- Led qualitative analysis and program evaluation for international non-profits, synthesizing insights for funding proposals
- Built a complex data collection tool in Qualtrics to support 16+ international partners executing research projects

Aetion — New York City, NY
Scientific Analyst Intern — June 2024 - August 2024

- Analyzed healthcare resource utilization (HCRU) and costs of Hemophilia A treatment using insurance claims data; created slide decks with data visualizations for presentation to pharmaceutical clients
- Performed targeted literature reviews and wrote background papers in multiple chronic disease areas
- Constructed variable banks and built patient cohorts using electronic health records and insurance claims data for epidemiological analysis on healthcare costs, disease burden, and randomized controlled trial emulation

University of Pennsylvania Center for Studies of Addiction — Philadelphia, PA
Research Intern — January 2022 - April 2025

- Conducted literature review on 20+ relevant papers to write introduction and discussion sections of manuscript published in Addiction Journal; collaborated with team to determine variables and analysis methods for the study
- Recruited 100+ participants for clinical trials through comprehensive phone interviews; led data entry on REDCap
- Led initiative to create pamphlets with referral information for patients; organized scheduling for participant interviews and follow-up communications

Digital World — Montevideo, Uruguay
Marketing Intern — June 2023 - August 2023

- Wrote and distributed surveys in Spanish to over 1,000 consumers, analyzed results to create buyer personas and performed in-depth market research on B2B and B2C client base
- Presented findings to marketing team and proposed new directions for marketing strategy

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

GlobeMed — Philadelphia, PA
Director of Local Engagement and Campaigns — January 2022 - December 2024

- Coordinated scheduling and led weekly volunteering at Prevention Point Philadelphia, a harm reduction center (clothing drives, syringe exchange program, harm reduction education workshops, food donations)
